AN OPEN LETTER TO PARENTS OF REVOLUTIONARY CHILDREN

Dear Mom,

This letter might sound as though it were written by a person preparing a death farewell, as a statement to be read at a funeral—a funeral at which it would appear as though the whole world and especially the world's youth were to be dropped to the ground in eternal rest. This letter might reflect an attitude which appears to be one of defeat, destruction, confusion and despair. However, let me say quite clearly that it is a statement of love, victory and confidence which will encompass, embrace and advance mankind. Death to us as young revolutionaries is indeed the victory: life, the life of a slave, life lived on terms dictated by the racist slave-masters is a defeat. Life is a disgrace, defeat and a dishonor when allowed only by compromising our basic manhood.

"In revolution, one either wins or dies."

Che Guevara

This letter is perhaps the most pressing and difficult responsibility which faces us today. We feel it is necessary to write this letter now, before it is too late for us and becomes too confusing to you. It has become increasingly clear to you because the present world situation appears horribly frightening, even for those of us who make daily preparation to face brutality. On the other hand, we completely understand your inability to know what's really happening in the world, because the pig newspapers, TV shows, radios and school systems have been deliberately designed to confuse you. We know that the beautiful and intelligent parents have been prepared by these instruments of oppression to understand and support the present system, the master class, the white man. It is to the credit of our parents have been tricked into giving blind obedience to a government, a system and a standard of values which have been structured by a group of coldblooded, criminal madmen—the rich, racist United States business and their flunkies. (If you, our parents, ever find time away from your daily strain of making a living, we would appreciate the opportunity

to prove to you that we are totally aware of the foul and indecent nature of the United States government and every aspect of the racism, capitalism and imperialism. As we prepare for our battle, part of our task is to make our parents understand that we are not foolish, romantic, idealistic children playing games with war toys. It is important that you know that our slogans are not yelled to impress you, but to inform you and the rest of the world as to the true nature of this racist decadent society.)

We love you deeply and it is necessary to say that we, the products of your many years of pain, slave labor, never-ending bill-paying and small but inconsistently joyful accomplishments, must now move with guns in our hands to destroy by revolutionary action the fascist armies, systems and ideas which make us weep for peace, equality, dignity and happiness.

"We are the advocates of the abolition of war. We do not want war. But war can only be abolished through war. In order to get rid of the gun, it is necessary to take up the gun."

Mao Tse Tung

This letter is so important to us that I feel unqualified and unable to correctly explain all the pain and emotions with which we have dedicated ourselves to a lifetime of struggle.

A poet would find it hard to write rhythmic patterns which could ring out as proudly as we stand with our brothers and sisters of Africa, Asia and Latin America singing: "Inferno or Death!" "All Power to the People!" "Death to the Pig!" "Power, Brother, Power!" An artist with his brush defiled because suddenly unable to paint a picture which would so beautifully reflect the world of peace that we fight for. Without concern for personal safety, a writer well taught in the art of description is now unable to fully describe the horror and insult of being mentally and physically tortured by a government that completely endorses racism and human suffering. A musician's delicate fingers

cannot pluck strings which sound as melodic as revolutionary love which requires human commitment beyond anything which we could ever imagine.

I know it is increasingly shocking, confusing and sometimes shameful for you when you see us do things you do not understand. We know that the thought that flashes through your mind is: "What has happened to my baby? Has he or she gone mad? I wonder if she's been using drugs? I wonder if he's having trouble with his girlfriend...I wonder if the 'Communists' have manipulated

"A SLAVE THAT DIES A NATURAL DEATH CANNOT BALANCE TWO DEAD FLIES ON THE SCALES OF ETERNITY."

her mind...I wonder if she's an anarchist...I've worried all my life trying to make something out of that boy. God, oh God, bring my child back to me."

We want you to remember who we are and why our acts are driven by the same strength that you insisted we have. You taught us to speak out and to fight anybody or anything which is wrong, no matter what the odds. We remember your many stories in which you described your misery and hurt. A misery which you had to endure while at the same time trying to raise us, feed us and teach us while

all the forces of oppression weighed heavily upon your shoulders. We have not forgotten those distant looks of fear, hate and pain which appeared in your eyes too, too often. We are the eyewitnesses who have grown up knowing about: The Civil Rights Bill of 1872 and the Civil Rights Bill of 1964—both have failed. We know of the Red Summer of 1919 and the Red Summer of 1963. We know of the March on Washington full of peaceful prayers and preparations by A. Philip Randolph in 1941 and the same kind of March on Washington in 1963 by Martin Luther King. We know of segregated armies endorsed by the federal government. We know of the 150 lynchings of Black people in 1925. We know the real, true and beautiful facts about Africa. We know that many of you did day work for one and two dollars a day in Miss Ann's Kitchen. We know that cleaning toilets was the only job you could get in 1940 while our fathers were dying in World War II. This, at the same time the nation was booming with military production, and only changed by the so-called Civil Rights Bill No. 8804, introduced by the Pig President Roosevelt. We know of Topeka vs. Brown, 1954 and we know of Nixon giving extensions to southern and northern school districts in 1970. We remember Philadelphia, Mississippi, Birmingham, Alabama, Bull Connor. We know of all-white trade unions while our fathers and brothers carry the bricks and lumber. We know of the 60 year life expectancy for poor Black people and the 74 year life expectancy for white people. We have seen children with their ears cored off by rats. We've seen junkies starve and freeze through the night. We've seen people who have been victims to the hospital system that allow poor citizens to be charged 60% interest on money borrowed. We know of the Molly Maguires, the migrant workers—wages so low that many of you worked two jobs for years. We see the varicose veins which make you unable to stand. We've had the good fortune of knowing the failure of the so-called legal and educational systems. We are guided by Malcolm X, Che Guevara,

Bobby Seale, Mao Tse Tung, Huey Newton and by you, our parents. We have stopped worrying about life which is more painful and shameful than death itself.

"We are the revolutionaries." "Submit or fight."

Jonathon Jackson—17 year old Black warrior

We could continue on, telling for hours, days and years the factual accounts of the United States government. We could describe over and over again the evils, racism, modern day slavery, capitalism and all the cave man acts which this government directs against Black people, Latin people, Asian people and even against poor White people.

We must close now because there is little time to cry and lament. We just ask that one more time you trust us, because we are what you made us. We do what mankind has directed us to and insists must be done and you must be proud of us. We are acting because there is a need for a world safe against greed, protected from racism and advanced to the level of human harmony.

"Knowledge is the appreciation of necessity."

Marx, Lenin philosophy

Our knowledge teaches us that it is necessary to fight. To fight knowing it is the only means of achieving liberation. We want a love generation, but to create a love generation we must first dedicate ourselves to the destruction of the hate generation. Huey Newton has said that "the slave that dies a natural death cannot balance two dead flies on the scales of eternity."

FASCISM ENGULFS THE AMERICAN WORKER

"IT'S ALL A MISTAKE-- Police armed with shotguns forced these four men out of a car and pushed them to the wall of a Baltimore bank, only to find out the men are regular bank customers. Police became suspicious after noticing the men sitting outside the bank each week when an armored truck delivered money. It turned out they were merely waiting for the bank to open in order to cash paychecks after working all night." (Berkeley Daily Gazette)

In their usual fascist manner, the pigs try to make light of

one of their routine acts of intimidation. The pigs, having been caught in the act, decided to further humiliate the four victimized Baltimore citizens by making them the subject of a public relations ad for the pig department. However, the empty words of the pigs claiming to have made a "mistake" can't justify the constant repression that the poor people of Baltimore and other fascist cities are subjected to.

ALL POWER TO THE PEOPLE

WE WANT FREEDOM.

SURVIVAL PENDING REVOLUTION

The ruling circle of this imperialist racist empire will not perish of its own accord. It is the duty of the Black Panther Party to organize the people in order to rid ourselves and the rest of the world of this number one enemy.

But revolution cannot be carried out by words alone. Never in the history of man has there been a successful peaceful revolution. The overthrow of one class by another must be carried out by revolutionary violence.

Until this stage is achieved, we must concentrate on the immediate needs of the people. In order to build a unified political force, based on the ideology of the Black Panther Party. Survival pending revolution is our immediate task and to do this we must meet the needs of the people. We have been doing this through our liberation schools, free breakfast programs, child care centers, bussing programs (people are able to visit members of their family in prison) and clothing programs. We will also now move forward to institute a shoe shop. The shoe shop will consist of the making and repairing of men's, women's and children's shoes. The shoes made will be distributed to our many centers to be given away free, while the repairs will cost a very small fee.

During the two months search for a shop to be used, it became quite obvious from the many obstacles set up by the pigs, that they intended to maintain the robbery by the capitalists in our Black community. With the ef-

forts and hard work of many people the location of the shop was finally established at 620 14th Street, Oakland, California, between Grove and Jefferson Street.

We now only have to obtain the necessary zoning permit needed for the making of shoes at this particular location. Based on the behavior pattern of this racist government in the past, we can however assume that obtaining this permit will not be an easy task. Only through the help of the masses can we hope to carry out any of these programs which this affluent (wealthy) society neglects to supply us with. Instead they prefer to pacify us with handouts through the so called poverty programs. Programs that have been set up to benefit the very few that run them, while they lead people into believing the answer to all poverty and the racism we have been submitted to for more than 400 years will be completely eliminated after getting a job. When the truth is, based on the racist and capitalist standards which have been set up, more than 50% of our people could never be employable.

Until we are insured the basic human needs that will benefit all people, the Black Panther Party with the help of the masses will continue as in the past, to serve our many communities with relevant programs, in the true spirit of intercommunalism.

PIG ATTACK ON TOLEDO LEAVES 3 INNOCENT CHILDREN DEAD

Pigs force Carol Lane from house where her 3 small children burned to death.

The Black Panther Party since its inception in 1966, has been correctly teaching the people the many forms of murder being perpetrated against oppressed people of color in America. As the racist and genocidal practices of the ruling circle and their pig lackeys became more exposed they began viciously attacking Party offices all across the country. The results of these attacks have left over 30 Party members dead, murdered in cold-blood and many members imprisoned. But these vicious attacks have only made the Party intensify its struggle to establish revolutionary political power among the masses of the people.

To counter our intensified efforts the pigs have escalated their efforts to destroy the Black Panther Party and its organizing bureau, the National Committee to Combat Fascism.

Tuesday, December 22, the pigs of Toledo, Ohio, launched their latest and most vicious attack on the N.C.C.F. At 10:15 A.M., a fire was discovered in the home of James and Carol Lane at 225 Batavia Street. By the time the pigs from the fire department arrived the entire downstairs was in flames. Instead of investigating to see if anybody was in the house, they began to slowly connect their equipment and feebly attempt to put out the fire. All the while Carol Lane was trying to inform them that three of her five children were trapped in the front of the house. By this time it was too late to save Deborah (5 years of age), her sister Linda (4 years of age), and their baby brother Mark (2 years of age), from being slowly burned to death. Before family or friends could assist Carol Lane, two racist pigs of the Toledo Pig Department forcibly and against her will took her to St. Vincent Hospital for treatment from shock. But the major source of shock, besides the death of her three children, was the fact that the pig firemen of fire station N. 7, made no effort to save her three children. In addition to this mental injury, she was treated like a criminal by the pigs of the Toledo Pig Force.

The reason for the pigs' actions are because Carol's husband, James Lane, 34 years of age and a Korean War veteran, is a ded-

icated community worker with the N.C.C.F. This brother has suffered continuous police harassment since he started functioning with the N.C.C.F. He has been subjected to everything from illegal stop and search tactics to threats of death.

All of these acts by the pigs failed to stop this brother's determination to serve the people any way he could. The pigs knew whose house it was when the first fire alarm sounded and the address was passed over their communication network. Fire station No. 7 is less than 3 blocks from the Lane home on Batavia. It should have taken these pig firemen no more than two minutes to get from the fire station to 225 Batavia Street. Reports from witnesses are that it took them anywhere from 10-15 minutes to arrive on the scene. These same witnesses reported 10-15 pigs from the Toledo Pig Department were also at the scene of the fire. In fact some witnesses said the pigs arrived at the fire before the firemen did. As usual these racist dog policemen acted as if they were preparing for a shoot-out. From the way they responded to the fire it is quite clear that they either started the fire or purposely and willfully delayed the fire department from coming to the fire. Both of these acts were attempts to kill James Lane, but instead his three children became innocent victims of this sadistic plot.

Two other children, Kevin (8 years of age) and Gregory (9 years of age), are alive because they were not at home. James Lane was working in the N.C.C.F. office at 1334 Dorr, when the fire started. The only eye witness, Carol Lane, was spared because she was in the back of the house and was able to get out through the back door. During the time of the fire, James Lane's sister, Jean, and several other people tried to telephone the N.C.C.F. office to reach him, but the telephone line was mysteriously out of order, so his sister came to the office and notified him of the fire and death of his children.

When James Lane and other N.C.C.F. members reached the scene of the fire at approximately 11:45 A.M., every piece of fire equipment and firemen were gone.

There was no fire investigation squad, investigating the house to determine the cause of the fire. The pigs were circling the street in cars making obscene gestures and smiling. The meaning is all too clear, the pigs of Toledo murdered three innocent children of an N.C.C.F. member as revenge for the gang-land style (Sept. 18) execution of pig Miskannon who was killed by members of the narcotic traffic in the Black community for holding out collection money.

The N.C.C.F., along with many people of the Black community expressed their solidarity with the Lane family at the funeral services held 11:00 A.M., Tuesday December 29, 1970, for the three Lane children. Many groups are participating, along with the N.C.C.F., to raise money to help the survivors in the Lane family replace their possessions that were totally destroyed in the fire.

This blatant example of racist and genocidal action by the pigs in Toledo, Ohio, is but one of many that occur each day throughout the American Empire's oppressed communities. In fact with the devastation caused by urban renewal and the actions of the pig police, it is comparable to any city occupied by the imperialistic American army in Vietnam.

The pig of Toledo, will soon see that the oppressed people in this city are realizing their commonalities with the oppressed Vietnamese people and are learning that an armed struggle is the only way to deal with murderous aggression of the racist police. Just as the heroic Black people of Cairo, Ill. are defending their lives on what is called the Battlefront in America, the oppressed Black people of Toledo, Ohio, have declared their community a warzone and consider the Toledo pig force an occupying army. All future acts of armed aggression will be met by the peoples' armed resistance to protect their very existence. Anyone wanting further information regarding this incident, please contact:

LAS VEGAS PIGS ATTACK BLACK COMMUNITY INFORMATION CENTER

Brother points out bullet holes on side of house.

When the workers in the Black Community Information Center in West Las Vegas returned to the house on the night of December 19, 1970, they noticed that the street lights in the neighborhood were out (except the Christmas lights in people's homes). However, directly across from the track of homes where the center is located are the Herbert Gerson Housing Projects and the Carey Park Apartments whose street lights were on.

Later on in the night at approximately 2:55 a.m. on the 20th of December, the center was fired upon about fifteen times with 45 caliber and 30 caliber shells which were dug out the next day by the workers. Just prior to the shooting, one of the workers heard an automobile speeding down the street and a helicopter flying above. Seconds later the helicopter flashed its lights on the Center and the passing car opened fire on the Center.

The next day people from the community came and told us what they had seen. One of the residents told us that when she heard the shots, she went to her window in time to see two unmarked police cars speeding past her house. Another resident told us that she heard the helicopter over her house and saw the lights being flashed on the Center.

With this open attack on the Community Information Center, the fascist-cowards of the Las

Vegas Pig department have escalated their genocidal repression in the Black Community.

On the morning of December 21, 1970, the press was informed of what had happened. Later on, the chief pigs of both the Las Vegas and the North Las Vegas pig departments told reporters that neither of their departments knew anything about the shooting incident, and that it was just a publicity stunt put on by the workers at the Center.

Well, we are making it clear that we don't want any publicity; we want our complete liberation and freedom. We stated in the press confab that we indict the fascist pig departments of Las Vegas for attempted murder without provocation. We intend to defend our homes, offices, and our lives against anyone who attacks us. From this day on, December 21, 1970, the coward dog police will enter the Black Community at their own risk. We know that in order for us to live in an equitable society (utopia), Babylon must be fertilized with the blood of the pigs. We have no hang-ups about Revolutionary violence.

BOOTLICKING NIGGER INSULTS LOW-INCOME SISTER

On Wednesday, December 15, I had to have a prescription filled for my son who has been sick since he was two weeks old, although he's thirteen months now. In the past my husband who is now incarcerated in one of the fascist jails in Babylon was always able to go and have this done for me. Being unable to get to the drug store, because of my other small children, I called Greene's Drug Store (a Rexall Drug Store). They advertised "prescriptions filled from 8 A.M. until mid-night-free delivery service." After I had given him the information for the prescription the man on the phone asked, "Is this a DPA (welfare) prescription?" When I replied, "Yes", I was told that the drug store didn't deliver DPA prescriptions. As a further explanation, I was told that the store had made an agreement with the state not to deliver DPA prescriptions. When I asked for the store's registration number with the state so I could go check out the agreement at the state building, the man changed his mind, saying, "Oh, I mean this is our store policy".

Later on that evening, when I was finally able to get out of the house all the drug stores in the neighborhood were closed, so the only one I could go to was Greene's which is eight blocks from my home. When I got into the store I was greeted by a bootlicking nigger. When I handed him the prescription I asked him if I could get the prescription refilled at the same time. I reminded him that the store didn't deliver DPA prescriptions and explained that it was difficult for me to get

to the store. The lackey's response was, "Listen lady, you don't get DPA prescriptions refilled". I said why not and he responded, "Listen lady, you just don't". Not being satisfied with this, I demanded an answer. About this time the house nigger's master came and explained that when a doctor wants a DPA prescription refilled new forms have to be filled out each time.

Of course, being a DPA recipient there was a series of questions I had to go through before the prescription could be filled. When the bootlicking nigger asked how it was possible for my last name and the baby's to be different I told him that it shouldn't surprise him too much because it is a familiar thing in Black people's history. After a long wait and many harassing questions, the prescription was finally ready.

As I was leaving, I noticed a sign that read: "We give our

customers green stamps". Well being a customer (at least I thought I was), I asked for my stamps.

The bootlicker responded, "You didn't buy anything", and he began to shout in the store, "You're on DPA and you don't get nothing."

I'm asking the people of the community to stop patronizing Green's Rexall Drug Store. Until a low income person is treated as a first rate customer, until the time when we can go into the store and be treated like a human being I'm asking that the community boycott Green's Drug Store. All businesses in the community must operate in the interest of the people.

PIGS CAUGHT TRYING TO PLANT DOPE ON BROTHER

On the night of December 23, 1970, at 11:05 p.m., I left the Harlem office of the Black Panther Party, on 122nd street and 7th ave., on my way to the Community Workers' House. As I was walking down 122nd street towards 8th avenue, I saw a pig car patrolling the block; the pigs jumped out of their car and grabbed a brother who was just walking down the block. They dragged him into the hallway of 240th W. 122nd Street one pig badge, #175, a sergeant began to search and man-handle him. The pigs then completing their act of harassment jumped back into their pig mobile and left.

I observed the whole incident and approached the brother to inquire what had happened. I also told the brother to check himself to make sure the pigs hadn't planted anything on him. While in the process of doing this he found two bags of dope (heroin) in his pockets. The brother threw these away, and was educated once again to the methods the fascist pigs employ against oppressed people. I said

"All power to the people" and continued on my way.

While walking I saw the same pigs driving back up the block. They drove past me and stopped by the same brother, all three pigs jumped out and dragged the brother into another hallway and began to search him.

The sergeant pig #175 stayed in the doorway to make sure no one was observing them doing their dirty work. In the meantime a black pig was searching and looking all over for the dope they had planted. The pig couldn't find it so he called the sergeant

who began to search the brother himself. When he realized what had happened to the dope he began attacking the brother. The other two pigs joined in and the pig no. 175 came back to the doorway and saw me checking them out from across the street.

At this point the pigs stopped beating the brother and started to approach me. I turned around and left. The three pigs started trailing me so I had to make a quick escape.

I knew that if the pigs had caught me they would have tried to brutalize or murder me. The pigs don't want the people to learn about their true nature and their ways of railroad people into jail. We will continue to expose them for what they are and we will begin to give them what they deserve.

REVOLUTION IN OUR LIFETIME

by Ericka Huggins

This is just a message to all of our brothers and sisters in the struggle and all freedom-loving people everywhere.

I feel that I should communicate with you all but I realize that writing is only partial communication, that words can never express the need for all of us to become educated in the fullest sense—to become aware of all the things around us, the things that depress, repress and oppress us.

I sit and wonder when/if people will begin to see that we do not have to sit back and allow this country to destroy us economically, politically, or spiritually any longer. We, the poor and oppressed, have the ability to cleanse the country of its corruption, to break down all of the barriers that have kept us from the communities of the world in thought, in word, in interaction. We must build a new world. All other generations have passed this responsibility on and it is time to stop the clocks and seize the time. Change, destroy and rebuild. It is time for us to build a world free of selfishness, racism, narrow nationalism and the desire of any group of people to claim this world as their own. The universe belongs to the people—to live to create—for each other.

Amerika, thus far, has been the CORE of negative reaction to the struggles of the people of the world. This negative core must be destroyed before the festering sore of world-wide oppression can be stopped. I speak of Amerika's cancerous government, not of its people. It will

be the people of Amerika who will change this cancerous core to a wheel of blazing light from which the people of the world may receive love, strength, and the knowledge that they need fear no longer the expression of freedom... complete freedom.

We will not be able to achieve this type of freedom without struggling for it, inside the walls of the prisons of our souls—behind the walls of maximum security (the camps) and the invisible walls of minimum security (the streets).

Each day, as I sit in the alleged court of justice in New Haven, I am saddened by the dull, cold, narrow, often racist lives of the people who wish to try Bobby and me. I leave everyday angered at what Amerika has done to its people; angered at the apathy that is allowing Amerika to continue its oppression and brutality; angered at the truce Amerika calls on December 25th of every year so that its robotic, brain-washed population can Christmas shop and pretend to love one another. I get angered and saddened, and my thoughts are centered on the necessity for us to move swiftly and begin to change before it is too late, before too many of us have been ruled on, jailed, or sucked into the vacuum of apathy.

Ericka, political prisoner

BOBBY AND ERICKA DEMAND THAT THE FASCISTS OF CONN. RESPECT THEIR CONSTITUTIONAL RIGHTS

December, 1970

Bridgeport, Conn.

Because of inhumane and discriminatory pre-trial treatment and violations of their said constitutional rights, Bobby Seale and Ericka Huggins filed a lawsuit against those responsible for their mistreatment and for the conditions under which they have been incarcerated (imprisoned) in Connecticut. Those named in the suit begin with Ellis C. MacDougall, State Commissioner of Corrections, and includes the following:

Arnold Markle—State's Attorney of New Haven County
Harold E. Hegstrom, State Jail Administrator of Conn.
Janet S. York, Deputy Commissioner of Corrections for Women Services and Superintendent of Conn. Correctional Institution at Niantic

Henry Karney—Captain in Charge of Community Correction Center, New London (Montville Correctional Center)

Elizabeth Crouch, Asst. Superintendent and Chairman of Discipline Committee of Connecticut Correctional Institution at Niantic
Charles E. Weeks, Special Agent in Charge, New Haven Office of the FBI

The suit, filed on October 9, 1970, was finally brought before the Federal District court in Bridgeport, Connecticut, on Wednesday, December 16. Judge Robert C. Zampano presided. That session, which lasted about two hours, carried the testimony of Ericka Huggins. The second session held on Wednesday, December 23, saw the completion of Ericka's testimony and the

three hours of testimony by "Chief Jailer" Ellis C. MacDougall. Charles R. Garry, chief counsel for Bobby, exposed MacDougall by making it obvious to all present in the courtroom that he and state's attorney Arnold Markle, to whom he has had to continually resort for advice, are definitely working hand in hand in their attempts to prosecute and execute Bobby and Ericka before "trial".

MacDougall could not deny, for example, that materials (personal writings, reading matter, legal affidavits etc.) most of which is pertinent to their case, stolen from Bobby and Ericka's isolated rooms has been turned over to the state's attorney, Arnold Markle, who is the prosecuting attorney in their New Haven trial case! MacDougall said that such actions by any of his subordinates would surely be "in poor taste". He admitted, however, that there are no rules and regulations prohibiting them from committing this and other low-lived acts that Bobby and Ericka's attorneys have proven to be unconstitutional.

It should be noted that after being held in "administrative segregation" since her incarceration in May of 1969, Ericka has now (AFTER THE LAW SUIT WAS FILED AGAINST MACDOUGALL AND CO.) been placed in the "general population" along with other women.

On Thursday, December 24, Bobby and Ericka returned to the Federal Court in Bridgeport for the third day of their suit against the State Department of Corrections and its administrators. Most of the day the attorneys spent behind closed doors in the judge's chambers. When they emerged, the following agree-

ments had been made:

1. Commissioner Mac Dougall will bring the question about beards to the Department of Corrections and will make a recommendation that beards like Bobby's be considered "within reason". (Refusal to shave his beard was supposedly the primary reason Bobby was placed in "administrative confinement" better known as isolation). He has been there since his incarceration in Connecticut.

2. The commissioner will present to Department of Corrections a recommendation that all mail between attorney and prisoner, judge and prisoner not be censored. (Such censorship, although practiced in Connecticut, is unconstitutional).

3. Attorneys for Bobby and Ericka may submit any and all reading materials to them, to be used for their defense and they cannot be seized.

4. Bobby may have The Black Panther, Black Community News Service in his cell in a manila envelope and must not circulate it in jail.

Ericka may also have the paper but will be provided with a room which to read it and other materials considered by the jail administrators to be "inflammatory."

5. Writings of Bobby's and Ericka's that are in manila envelopes cannot be seized or censored.

6. Any material witness or potential witness for defense can be present in conference with either Bobby or Ericka and the lawyers.

7. Bobby will be allowed one visit by a San Francisco friend and psychiatrist, Dr. Philip Shapiro.

8. The 30 days credit time (good behavior time to be deducted from total prison sentence) that had been taken from Ericka after a conflict with guards was restored.

9. Bobby and Ericka can receive urgent phone calls from attorneys and can make them if necessary.

As expected, the charge that hidden listening devices have been planted in Bobby and Ericka's cells and conference rooms was denied. States Attorney Markle had the audacity to say that he would have someone check it out.

The significance of these decisions is that they will, in effect, apply not only to Bobby and Ericka but to other prisoners particularly in the state of Connecticut, who have been denied these basic rights.

This case is not yet over. There are a number of other charges to which Mac Dougall and Co. must answer. Some time during the first of January a date will be set for the resumption of the case.

"Bobby Seale's trial will be a test for young white revolutionaries. It is their turn to prove how clearly they can analyze the situation and how skillfully they can go about finding the means for action. This, here and now, is the moment of truth-for Bobby Seale, for the Black Panthers, for young white Americans."

Jean Genet

During the course of the last four years, the Black Panther Party has proven, by its practice, to be the most Revolutionary organization to emerge and lead the struggle in America. They gave the movement political direction and showed, by example, the correct method of analyzing phenomenon and making it move in a given direction. As white people, we had already been moving in support of the liberation struggles of other countries. Our main focus was imperialism and a desire to correct past mistakes by actively opposing what we recognized as Genocide on the Vietnamese. We were hip enough to understand that we had been lied to, and honestly wanted to deal with the realities of our lives and our history in order to get to the truth. With the emergence of the Black Panther Party, we began to recognize the need to support the struggle of the colonized peoples right here in Babylon.

The Panthers would probably have had an easier time in their communities had they adopted a racist line, but instead-as Revolutionaries-they educated people to the necessity of class struggle. They moved in this principled Marxist-Leninist manner and so showed by example their trust in the ability of white people to change and also move in a principled direction. The Black Panther Party newspaper was always available to anyone and served as a means of letting everyone know what their ideology was (how and why it was changing) and what we could and should do in order to build a socialist society. They didn't keep their goals or the means they were using a secret, and they didn't sit around waiting for white people to give them the OK.

They didn't ask us if we approved of the forms their struggle would take; they didn't ask us to help them define and figure out the methods they should use; they didn't ask us to "show them the way" as we've expected and demanded black people to do in the past. They just started making sure that people got fed, clothed, decent medical care, decent housing, correct information and self respect. They didn't ask our permission to pick up a gun-they recognized that necessity and moved on it. All the while trying to have coalitions with white groups that were beginning to move in a progressive manner.

For some of us, even though surprised and maybe disappointed to see that black people obviously didn't need our supervision, we said we respected what they were doing and the response was "Right On," we would fight the common enemy cooperatively by showing solidarity with the Panthers and all oppressed people. Huey P. Newton was on trial for supposedly killing a pig and our primary goal became to get him out of jail.

WE MUST SAVE BOBBY

We said that we knew that racism was bullshit and we wanted to prove to the Panthers (and all oppressed people) and ourselves that we would fight with/for them. No more myths, lies or definitions could divide us-we really understood what had to be done and would do it-in order to free us all. We said that we realized that oppressed people have been tricked all through history by people who say they will help and then either sell out or chicken out in the end. But we were different, and we wouldn't do that-we were too honorable, too intelligent and too human. But we knew that we were raised with Mother Country mentality and that old ideas and ways of relating to reality are very difficult to correct and move on. But we've tried, and in a lot of ways, we have proven that we've been listening and learning. We've been beaten, arrested, hassled and shot. We've raised money to bail out a lot of Panthers, helped get Huey back on the streets, educated some people, bombed pig institutions and gotten the power structure very uptight. By developing a new life style and supporting the liberation struggles, we have helped take the struggle to higher levels.

But "Something's happening, Mr. Jones." For example a couple of weeks ago, there was a mass drug bust of white radicals and hippies in New Haven. In one weekend over 70 people were dragged off the street. This was the second mass bust (there was one during the summer) and both times they were effective. There was little or no resistance-people just allowed themselves to be carted off without defending themselves. There was no community support. We have seen the correct examples set by the Panthers again and again of self defense (Los Angeles, Philadelphia, New Orleans, etc.) and how active support from the community scares the pigs. As repression increases, we must intensify our struggle instead of allowing the pigs to set their example by quietly ripping us off. But this isn't happening-people are saying that things are "slow" right now... Maybe its because we've been beaten, killed and jailed too now and that we're realizing the full implications of what solidarity means, so Bobby Seale isn't getting the active support he needs from us; maybe it's because we're still racists who mistrust black people and don't care about one of "them" being murdered; and so refuse to relate to Bobby as one of our leaders who we love so much that we won't allow the pigs to murder him. Maybe its because class struggle looks pretty on paper but bloody in practice

that we've ignored poor white people who the Panthers keep telling us to serve and instead formed an elite movement that serves itself but makes us feel safer. Maybe its because we don't approve of the nature of Bobby's "torture-murder" case so that instead of intensifying the struggle around him, we're sitting back giving unconstructive criticisms and super-intellectualizing about method, time and practice. Maybe its because we're just dumb and can't correctly analyze what the pigs are trying to do to Revolutionary in particular and poor people in general, so that we're a fragmented, factionalized, muddled and confused movement.

There are a lot of maybes. But for anyone who relates in any way to the above quote by Jean Genet-we must find the answer to why a lot of white radicals are still debating about whether or not we're willing to work until we drop in order to save Bobby's life. If the pigs are able to murder Bobby Seale, it means that we can't save one of our leaders, it means that we can't save ourselves. Must we still sit around deciding whether or not we want to survive? If the pigs are able to manipulate and terrorize us into being like the Germans who watched while the Jews were massacred, we are without honor, conscience or human decency (part of the problem) and the Third World will wipe us out in their righteous struggle to be free, because we will have stood silently by making sure that our own asses were safe. Must we still sit around deciding whether or not we want to survive? Every day the pigs move harder and harder and are more vicious in their attempt to crush the spirit of the people and every time we hesitate, every time we vacillate, we are helping the Babylonian War Machine kill a brother or sister who is fighting for their liberation. If we were doing what has to be done-we would all be free, so what are we waiting for? "The only thing that stands between the People and Paradise is the Pigs."

BLACK DRAFT RESISTER PRESSES BAIL FIGHT

By Tim Wheeler
Daily World Washington Bureau

WASHINGTON, Dec. 25 -- Denied bail and turned down by the U.S. Supreme Court, black draft resister Walter J. Collins has been spirited out of Parrish Prison in New Orleans and is now in Federal Prison at Texarkana, Tex., where he faces a five-year term.

Collins, a staffworker for the Southern Conference Education Fund (SCEF) and also southern regional director of the National Association of Black Students was arrested Nov. 27 at his home in New Orleans on charges of refusing induction into the U.S. Army.

Federal marshals came to his home, handcuffed him and would not allow the 25-year-old youth time to pick up his toothbrush and coat.

The Supreme Court on Dec. 18 refused to reconsider its earlier denial of a hearing on Collins' appeal. It will not hear arguments that it again reconsider the denial until some time after Jan. 11, when it reconvenes.

Supreme Court Justice Hugo Black, who is justice for the U.S. Fifth Circuit, which includes New Orleans, turned down a motion by Collins' attorney for bail but said it was "without prejudice," meaning that Collins can appeal to another high court justice.

Carl Braden, SCEF information director, told the Daily World when reached by telephone at Louisville, Ky., that the SCEF will take the bail appeal to Justice William O. Douglas, the only member of the high court who dissented from the court's refusal to hear Collins' appeal from his conviction.

U.S. Solicitor General Irwin Griswold opposed bail for Collins and asked the court to give him time to prepare arguments.

"They are out to keep Collins locked up," declared Braden angrily. "They are trying to keep Collins, and Angela Davis and all the black militants in jail."

The Supreme Court rejected Collins' plea the same day it turned down Angela Davis' appeal against extradition to California.

David Gutknecht, Elliot Welsh and SCEF organizer Joseph Mulloy, white draft resisters, attempted Dec. 10 to file a "friend of the court" brief at the Supreme Court here on behalf of Collins. They pointed out in their

brief that they too refused induction and yet the Supreme Court ruled in their favor and freed them.

"We challenged certain injustices in our draft cases and were finally set free by this court," the brief declares, "but in view of the treatment given our black brothers, we cannot help but feel that the fact that we are white aided us greatly in winning our cases."

Gutknecht and Welsh charged that the Selective Service System "is being used as a means of repression and control" in the black community.

"The number of young, active black voices who have been suddenly drafted when they spoke out against repression...can be explained in no other way," they declared.

The three, together with Mrs. Virginia Collins, mother of the resister, also brought petitions to President Nixon signed by 10,000 demanding Collins freedom.

Collins has been active in the civil rights movement since he participated as a high school student in the sit-ins of the early 1960s. He has spearheaded efforts to build coalitions of black and white poor people across the south in towns like Laurel Miss.

Collins, at the time he was arrested, had been scheduled to speak at colleges and high schools throughout Louisiana to organize for a national conference Dec. 4 of Black draft counselors in Chicago.

SCEF points out in a "Defend Walter Collins" leaflet that the Supreme Court has stubbornly ducked rulings on the appeals of Black draft resisters -- Muhammad Ali, the heavyweight champion; Cleveland Sellers, founder and leader of the Student Non-Violent Coordinating Committee; Fred Brooks, Nashville Black student movement leader, and Mike Simmons, SNCC leader.

"The U.S. Supreme Court has decided 28 cases involving rights of draft resisters. Twenty-four of these were won and four were lost by the young men involved. But only three of those cases accepted for review were black. Two of these were among the four cases that were lost."

Yet, the leaflet adds, 22 percent of the GI's killed and wounded in Indochina are black though only 10 percent of the population is black.

BAILS IN THE N.Y. 21 CASE REVOKED TO COVER UP SHAKEY STATE CASE

The bails of the 9 incarcerated (called) Panthers were revoked by the fascist Judge, John M. Murtagh, as trial resumed on the 13th floor of the "criminal" courts building here in New York. The trial continued Monday, 28, December, with Attorney Charles McKinney requesting the court to make a correction in relationship to the bail of one of the Panthers, Clark Squire, whose bail was raised by a group, the "Computer People for Peace". Clark's bail set at \$50,000 in May 1969 was recorded by some "mysterious" clerk as \$100,000.00. This was supposedly a "clerical" error; that the bail of Clark Squires was set at \$50,000.00, in an open court by a judge in the Bronx was common knowledge, that Murtagh upon being presented with a new indictment by Asst. D.A. Phillips, in November of 1969 allowed the bails to remain at the same sum is also common knowledge. At that time (November 1969) another Panther also on trial, Michael Tabor, had a \$50,000.00 bail too which remained the same.

On Monday, when Attorney McKinney asked Murtagh to correct this clerical error, and allow Brother Clark Squire out on bail (\$50,000.00 in collateral and cash) Murtagh denied any knowledge of \$50,000.00 bail being set for Clark Squire, not only this, he went on to revoke everyone's bail. His stated reason was, "The defendants along with their attorneys were engaged in a conspiracy to disrupt and stop these proceedings, and their contemptuous conduct was 'obvious' or 'manifest.' Therefore, not only did he not recognize any 'error' clerical or otherwise in relationship to Clark's bail, but everyone now in jail presently on trial had their bails revoked (mostly bails of \$100,000.00 each), and the four Panthers who were out on bail were threatened with revocation of their bails if any of the defendants and/or attorneys did anything in the 'courts opinion' that was considered contemptuous.

This meant simply that anything anyone might say, or do could be grounds for having someone else's bail revoked or if the Attorney's argued vigorously on behalf of their clients others out on bail could also have their bail revoked.

This clearly points out the weakness in this case that has yet to produce any real evidence, where all names of items such as empty and partially empty spray cans are entered as evidence as "bomb parts" etc, and pictures of dynamite are used in lieu of real dynamite.

Everyday it is clear, for all to see, the foul actions and collusion being used to deprive Black people their freedom and lives. Judge Murtagh used bails and the system of this class justice to cover a very basic issue; the mockery and fascism in his court, and he has taken the traditional class-oriented bail system, its use as the ruling class repressive tool to its highest level. For now bails are utilized as another means of repressing a vigorous court defense.

On Tuesday the 29th, the cold biting winds of New York seemed warm compared to the coldness in Murtagh's court. The morning proceedings were delayed because one of the Panthers on trial Michael Tabor, who is defending himself did not appear in court, due to his being sent home by his doctor. Michael Tabor also called "Cetewayo" -- has had a long medical history as an asthmatic. On this particular morning he saw his doctor before proceeding to court.

His doctor advised him to get 24 hours bed rest and gave Tabor medication to relieve his asthmatic discomfort. Tabor went home and the doctor called the court to notify them of Tabor's condition and his advice. Due to a new operator and a break down in court communications, fascist Judge Murtagh, never received this information or pretended not to have ever received it. Therefore when court convened Murtagh asked the Attorneys where was the "defendant Tabor". Upon investigation they informed Murtagh that they had spoken to Tabor's doctor who stated that he had seen Tabor and had sent him home with an asthma attack. Murtagh's response was typical. He stated that he not only disbelieved the lawyer's excuse, but he did not believe that the doctor was telling the truth, nor did he believe Tabor was sick. Murtagh then revoked and forfeited Tabor's \$50,000.00 bail and issued a bench warrant for his arrest. Tabor called the court and despite his illness said he

would come to court that afternoon in order not only to vindicate himself, but to insure that Murtagh would not revoke the three other Panthers' bail, who were out in lieu of \$100,000.00 cash. Despite being notified by the attorneys that Tabor was on his way to court Murtagh would not stay Tabor's warrant, not even for a minute. Tabor arrived in court at 1:57 p.m. (court was scheduled to begin again at 2 p.m.) and was immediately arrested in court.

Murtagh sought to resume proceedings - stating that he would "entertain" an application of reinstatement of bail for Tabor as soon as it was filed in writing accompanied with a sworn testimony by the doctor himself. When asked if he (Tabor) was ready to proceed, Tabor told the fascist judge essentially that; he did not expect any mercy, charity or compassion from Murtagh, because his actions over the past 20 months showed exactly his true nature, character and attitude. That he was a "vile, foul, fascist pig" who cares nothing for others rights and tramples them beneath the boots of legal fascism.

Murtagh at this point sought to remove Tabor from the courtroom stating, "Let the record reflect that the defendant Tabor will be removed from the court." Tabor responded that the record will reflect that he was not being removed from the court, but was leaving the court. With this Tabor walked out of court to jail. Court was recessed for the day.

Court resumed Wed. the 30th as defense counsel attempted to move forward with Tabor's bail revocation hearing. They were told that this would be done at the end of the day. With that the procession of various pigs took the stand.

Bomb Squad Detective Gleason testified that he was called on the morning of Jan. 19th 1969, to the 24th Precinct on 100th Street in Manhattan, as reportedly there was a bomb found at this location. Gleason said that after examining the bomb he determined that it was of the same material he had used to substitute for real dynamite allegedly stolen from a Tenant Rights Office where a few of the Panthers now on trial were supposed to be working. This theft of alleged dynamite was supposed to have been carried out by a nigger pig agent who, coincidentally, was the supervisor of the Tenant Rights Organization, the Elsmere Tenants Council" in the Bronx. The agent's name is Ralph White.

Pig Detective Gleason also testified that he sprinkled fluorescent powder on the false "substitute" dynamite composed of clay and oatmeal. Thus, the supposed bomb entered into evidence was not real dynamite, but dried hard pieces of clay.

Identification of this evidence proved to be even more absurd than the evidence itself. Pig Gleason used an ultra-violet (black) light flashed on to the dried bits of clay in order to substantiate his claim. Of course the clay being light gray in color

WE WANT FREEDOM FOR ALL BLACK MEN HELD IN FEDERAL, STATE, COUNTY AND CITY PRISONS AND JAILS

glowed. Anyone familiar with black light knows that anything white or light in color will glow when subjected to ultra-violet light. This is seen time and time again when one enters a discotheque and has a white or light colored shirt, although it may be dark inside light colored material glows like a beacon. Even the lint on a sweater shows up glowing. Peculiar that Gleason had on a dark colored shirt, or is it? Even one of the jurors who had a white tee-shirt became a glow as Gleason pointed the light in his direction. The prosecution exhibition was quite transparent to everyone except the pig press.

Gleason went on to theorize on how to make bombs out of various things, such as sulphur (the type used as a laxative) and Mennen spray cans. At the end of the day pig Murtagh winked to the crowded courtroom a "Happy New Year" and was met with appropriate boos, hisses and jeers from the people.

Singling out one young woman, Laura Newman, Murtagh held her in contempt and placed her in jail with a \$250. fine. Then he told the "defendant" Richard Moore to remain and proceeded to deny Tabor's bail appeal until "his conduct" improved. He then proceeded to state that the defendant Richard Moore's bail of \$100,000. was also revoked and that Moore be placed in jail immediately. Attorney Leftcourt rose to his feet and argued on behalf of Moore, stating that Moore had not said a word all day, neither has he ever been absent from court, nor did the judge have any reasons to cite Moore for any contemptuous actions.

Murtagh at this point used Moore's bail along with Tabor's in order to save face. Using bail as a lever to gain concessions from the lawyers and defendants he said, "That when Attorneys give their word that they will not act in a contemptuous manner then he would consider reinstating Moore's bail. He also stated that he would only accept such a statement accompanied with similar assurances by defendants.

Attorney Leftcourt along with other counsels stated that they had at no time in the past ever consciously acted in contempt of court and to say they will refrain from doing so in the future was in fact an admission that they had done so in the past. Murtagh then modified his statement to imply that all he wanted was an assurance not a confession. The Attorneys of course replied that they have always acted in the best interest of their clients and never committed contempt to their knowledge, and therefore could make such statements with a clear conscience.

Murtagh allowed the Attorneys to confer with the defendants and they too admitted through their Attorneys that they had no desire to act in contempt, but only to stand on their rights. Murtagh accepted this, only to avoid collision that he could not afford and save face. But of defendant Tabor he demanded an abject apology which Tabor refused to give due to the fact that it was he who was unjustly jailed for being sick. Court was recessed until Monday, the 4th of January 1971.

Michael Tabor is still in jail, the 9 other Panthers have been in jail for 21 months, and if left to Murtagh they will stay there although there is no evidence to justify this. But in the final analysis it is not left up to Murtagh, but the people not only here in the Community of America but the Communities of the world who will free not only the '21', but all our brothers and sisters who are incarcerated illegally in jails all over this fascist Community.

Richard "Dharuba" Moore

"One of the great contributions of Huey P. Newton is that he gave the Black Panther Party a firm ideological foundation that frees us from ideological flunkiness and opens up the path to the future"....."The correct ideology is an invincible weapon against the oppressor in our struggle for freedom and liberation."

BROTHERS IN NEW YORK STATE CONCENTRATION CAMP FORM THE JONATHAN P. JACKSON COMMUNE

The aim of the Jonathan P. Jackson Commune is to promote and further the development of revolutionary consciousness among our brothers of misfortune, so that on release from this concentration camp they can take their proper place in the vanguard of the liberation of all oppressed people. We wish to encourage, nurture, and channel all the presently wasted potential of our best people; those brothers, who have opposed this barbarous system in an ineffectual manner for so long.

At this time, our emphasis will be on political education:

1. On the true history of our people and their history of resistance against oppression.
2. The strategic methods of resisting the slave master--i.e., the theory and practice of revolution.
3. The history and development of modern and contemporary revolutionary movements.
4. Military tactics.

The J.P.J. Commune will seek through its activities to totally transform all the negative qualities that the system has imbued and programmed into our brothers into positive forms, quantitatively and qualitatively. We aim at a total re-integration of body and mind; at the creation of new men--committed revolutionaries. We will help direct the boundless creative ability of our brothers toward self-determination and control of their destinies.

The ideology of the J.P.J. Commune is revolutionary, as such, we totally oppose the economic, political and social system existing in Babylon today. We are anti-capitalist, anti-imperialist, anti-colonialist, anti-racist, and anti-fascist. We actively support all revolutionary struggles of oppressed people for self-determination against the encroachments of western imperialism and its supporters. "We oppose everything the enemy supports, we support everything the enemy opposes." (Mao Tse Tung) Our enemy's enemies are our friends; our enemy's friends are our enemies." Our ideology is based on the historical experiences of Black people in the Babylonian empire, and on what ever relevant concepts that can be used, modified, adapted from the experiences of prior revolutionary struggles, to fit our particular circumstances. We are Revolutionary Socialists, pledged to the eradication of exploitation, oppression, injustice, ignorance, disease, and war, through the total destruction of imperialism,

colonialism, and monopoly capitalism, by using righteous people's war.

As a revolutionary collective, we will encourage among ourselves, and the brothers we come in contact with, those qualities that make the new man--the revolutionary guerilla fighter--love and devotion for our people, true brotherhood and solidarity with all oppressed peoples, discipline, dedication, self-reliance, willingness to sacrifice, knowledge, wisdom and understanding, of ourselves, our enemies and the means we are to use to destroy them.

As a revolutionary collective, we will relate to democratic centralism, as our form of organizational structure and discipline.

We will also relate to self-criticism and constructive criticism in an effort to learn from our errors and mistakes and eliminate from our collective all those poisonous weeds, that obstruct our development as a vital revolutionary force.

Our organization will be composed of righteous brothers, who are willing to make the sacrifices necessary to transcend the common filth of prison mentality--brothers who are willing to set revolutionary examples so that others may follow; brothers who are willing to learn and to teach each other the meaning of being a true revolutionary; brothers who will make every effort to separate from their being, all those negative attributes that the oppressor's culture has instilled into us for so long--individualism, and possessiveness; personal ambition, arrogance, and personal indulgence. Our commune will be composed of brothers who are willing to become proven revolutionaries--trained, disciplined, dedicated, active, and fully conscious of their historical role; worthy of the people; brothers whose minds are armed with revolutionary ideas, their souls with a spirit of love, devotion, and dedication to the people and the ideals of the revolution, so that when they arm themselves with guns, they will be able and capable of sustaining the protracted armed struggle that is necessary to eliminate the barbarous rule of our slave masters from the face of the earth.

Political Prisoner, San Quentin

Everytime I see or think of the phrase "WE WILL WIN", I can vision a true revolutionary Woman, dedicated to the bone, gladly sitting in some funky prison cell, in torturous seclusion before she would stoop to the level of the scurvy pigs. Who, I am

Ericka Huggins
Political Prisoner
New Haven, Conn.

most assured, would welcome the fate of an excruciating death before she would humble herself to the clique of political criminals and demagogic law and order fanatics, universally recognized as the ruling-circle of the U.S. imperialist empire.

Sister Ericka, Revolutionary, has shown through her practice the boundless determination TO WIN --- VENCEREMOS --- by whatever means necessary. She

refused to remain apathetic or indifferent to the ills that continue to plague the oppressed People and the fascist dogs responsible for these foul conditions. Ericka Huggins, drawing the clear line of demarcation between the oppressed and the oppressor, has illumined our long difficult path to Liberation and strengthened the courage of her Comrades by committing herself totally, without reserve, correctly showing our foremost concern must be to protect the People, educate the People to revolutionary practice/theory and serve the People--everything else is secondary.

When John Jerome Huggins, Ericka's revolutionary husband, our Comrade and the People's servant, was murdered by hired henchmen of the pigs, cultural-nationalist bootlicking reactionaries at U.C.L.A., she took this crushing blow to the struggle and herself in stride, instead of becoming hung-up on Brother John's unfortunate death. Moving from L.A. to New Haven Connecticut to establish a Revolutionary Political Power For The People, Ericka began to organize the "Niggas" off the block--the Lumpen proletariat--around the ideology of the BLACK PANTHER PARTY and our programs to serve their basic needs and desires. She educated the People why it was necessary to pick-up the gun in defense of human rights, and halt the pigs' brutality and murder of the People. Thus, the local New Haven ruling-circle of political riff-raff saw an immediate threat to the status-quo--economic exploita-

tion, class/racist oppression, dilapidated housing etcetera. The pigs with the aid of agent provocateurs proceeded to conspire against the Connecticut Chapter leadership in a perfidious attempt to silence the BLACK PANTHER PARTY and railroad Chairman Bobby, Deputy Chairman Ericka and other Comrades to the electric-chair.

Throughout the Revolutionary Camp of every community of the world, practice, in terms of revolutionary struggle to overthrow any decadent or repressive government, is universally known as the criterion of the truth. Meaning that: progressive People, selfless People, Revolutionaries, dedicated to the bone are determined by their fundamental and practical action put forth to alleviate the tortures, perpetrated by the various ruling-circles, in the oppressed communities of the world. Thereby, casting aside the flagrant vices of selfishness and subjectivism, they become a non-compromising force in motion, functioning in the interest of oppressed People. And the fascist U.S. empire and running-dogs, armed to overkill, have no defense or terror tactic to stifle the rage of the revolutionary struggle, in their futile attempt to reverse their inevitable doom.

ERICKA HUGGINS, being a proven servant of the People working to institute intercommunalism will forever be one of the most outstanding in the annals of revolutionary endeavors and strengths.....VENCEREMOS!

MONK TEBA ...POLITICAL PRISONER FRAMED

Last week a white professor at the University of Indiana, Arthur G. Carne, got busted with a typewriter and was charged with grand theft and possession of stolen property. When he went to court he claimed that the typewriter was given to him by a Black Panther named Monk Teba. When the judge heard this, he released Carne on a recognizance bond, which only required Carne's signature. The judge then ordered his pig lackies to arrest Monk Teba and authorized them to raid the Black Panther Party Offices in search for him.

Along with the outright murder of Panthers, the pigs have always held as priority the destruction of our offices and information

equipment. These fascist fools had set up machinery to raid the Distribution office located at 2350 S. Indiana. The only thing that stopped the raids and the murder of Monk Teba was the fact that the people were informed of the raid before it happened and were ready to deal. So the pigs thinking of their own selfish best interest, as they always do, decided it would be better not to put their plan into effect.

On December 21, 1970 Monk Teba, Communications Secretary

for the Illinois Chapter, was charged unjustly with grand theft of a typewriter and is now in jail for \$7,000 ransom. We know Monk Teba will have a trial like all other Black people, unfair, with fascist judge and a racist jury. The people must see justice done, we must put the real criminals, the pigs, behind bars for kidnapping servants of the people with intent to commit murder. All political prisoners must be set free or the sky is the limit.

The Black Panther Party is in desperate need of funds to Free Political Prisoners. It is necessary to supply them with good lawyers and to pay the high ransoms such as the \$7,000 needed for Monk Teba. We ask all concerned people to send donations to:

JUAN FARINAS DEFENSE COMMITTEE

PRESS RELEASE:

New York, Dec. 13--Juan Farinas was convicted on three counts of violating the Selective Service Act after trial on December 10-11 in Federal District Court here. Sentencing is now scheduled for January 28 and the defendant faces a possible 5 years in prison and \$10,000 on each count. An appeal is planned to the U.S. Court of Appeals.

The charges derive from an incident which took place in the summer of 1968, when Farinas attempted to distribute leaflets opposing the war in Vietnam to his fellow inductees.

He was charged on five counts, three of which were consolidated into one, charging failure to cease and desist from speaking, distributing leaflets, and unruly and boisterous behavior. The other two charges were hindering and interfering with the Selective Service System and refusal to report and submit for induction. At the time of the incident Farinas was a member of the Progressive Labor Party. He is now a supporter of the Workers League.

The Juan Farinas Defense Committee was formed on October 23, 1970 in order to fight back against these charges. In its founding statement the Committee termed the charges an attack on democratic rights and a political attack by the government against workers, youth and minority peoples. The Committee has fought to obtain the best legal defense and to fight back politically by mobilizing the largest possible support from the trade union, students, and the anti-war, black and Chicano movements. This fight has just begun. The trial began on December 10th. On that morning a demonstration of 100 supporters of Farinas took place outside the Federal Courthouse in Foley Square in New York. Taking part in the demonstration were members and supporters of the Puerto Rican Students Union, the American Servicemen's Union, the Workers League, the Columbia-Presbyterian Hospital Coalition Against War, Racism and Repression, the Social Services Employees Union-Local 371 of State, County and Municipal Employees, the Spartacist League, Vanguard Newsletter and students from campuses all over the city.

Speakers at the demonstration and picket line included Lucy St. John of the Workers League, Helena Farinas, the wife of the defendant and a hospital worker and member of Local 1199, a spokesman for the PRSU, and Dennis Cribben of the SSEU Committee for New Leadership, and Jon Rothschild, a striking taxi driver and member of the Socialist Workers Party. The demonstrators chanted: U.S. Out of Vietnam, Free Juan Farinas; U.S. Out of Vietnam, Out of Puerto Rico; Free Juan, Jail Nixon and the Judges; Free the Panthers, Hands off the Unions.

The choosing of a jury took several hours. Many potential jurors were excluded on the basis of their youth or possible opposition to the war and sympathy for the defendant.

The prosecution called four

witnesses. Two of the main prosecution witnesses contradicted one another on several points. One claimed that there was no regulation against leafleting in the induction center, while the other claimed that there was. They acknowledged that they saw the defendant with leaflets but made an attempt to stop him. These witnesses also attempted to say that the defendant had behaved in a boisterous and disruptive manner. However on cross examination, both were forced to acknowledge that there was absolutely no disruption of any kind, that the induction process at all times was proceeding smoothly, and that it was never necessary to call either the police or MPs to deal with the situation. Farinas had sought this interview in order to inform the authorities on his reason for withdrawing his signature from a security questionnaire filed at the time of his pre-induction physical. The intelligence officer falsely stated that Farinas said he would refuse to serve in the armed forces and that he would incite actions against the army. This witness had to "refresh his memory" on several occasions by looking at the typewritten report of his interview with Farinas.

The defense case sought to bring out Farinas' intentions in distributing a leaflet explaining his opposition to the war. The defendant challenged the prosecution's assertion that he had raised his voice or had been disorderly at any time. He also testified that not only had he not said he would refuse induction, he had repeatedly informed the authorities that he would not refuse, but he would also take full advantage of his constitutional rights to oppose the war, to speak out against it and to fight along with his fellow GIs against the war.

Testifying for the defense and corroborating Farinas' assertion that he was not refusing but was intending to go in on the day of induction, were three witnesses. These included Helena Farinas, a hospital worker; John Ortiz, an auto worker; and Enid Osten, a welfare case worker.

On cross examination the prosecutor read a section of the leaflet which Farinas had distributed, in which he used the words, "I refuse to fight..." Farinas explained that his aim was a political fight, and not just against the war in Vietnam. He said "There is a war going on outside, and in this courtroom as well. I take sides in this war, with the auto workers, the rail workers, the postal workers and all those fighting the bosses." The prosecutor then asked, "You take sides with those who suit you?" Farinas answered, "Of course."

In his summation the defense attorney, Sanford Katz, pointed out the weakness of the government testimony. He stressed that Farinas had not disrupted anything, and that the issue was one of free speech. Farinas was being tried because of his opposition to the war and his socialist view. Thus the Constitution was at stake in this case. The jury had to decide if leafleting was a crime. The jury had to find

the defendant not guilty if it believed in and intended to uphold constitutional liberties.

The prosecutor, Peter Truebner, claimed that the issue was not the war for free speech. He said that the first amendment was not an absolute, that it did not give license to disrupt. He repeated the government's charges of disruption, which had not been proven in the slightest. He made clear the political nature of his case by stating that Farinas had as much intention of going into the Army as Cassius Clay. The judge felt it necessary to order this remark stricken from the record after objection from the

Destruction by Pig Army Juan Farinas refused to join

defense to its racist implications.

The judge's charge to the jury was a crucial factor in the eventual guilty verdict. This charge was a virtual directed verdict of guilty, since it stressed total obedience to the officers in the induction center and stated that once the officers had counseled the defendant, he was guilty if he took virtually any action such as the distribution of leaflets. The officers had at no time instructed Farinas to stop distributing leaflets. They had asked him if he wanted to refuse induction and read to him a regulation on uncooperative registrants so rapidly that he heard only the sections providing for imprisonment and fine.

The key point is that although the government had been unable to prove its charge of disruption, the judge stated very strongly that simply not keeping one's mouth shut in the face of vague and arbitrary directives was tantamount to disruption and refusal to submit.

Even with this strongly pro-government charge, the jury deliberated for nearly four hours. The defense intends to appeal both the constitutionality of the Selective Service Act provisions which open the way to harsh penalties for exercising elementary rights of free speech, as well as factual matters, the government's inability to prove its case and the biased charge to the jury.

It became clear in the course of this trial that the government's motive was a political one.

Farinas' crime was a political one, that of determined opposition to the war as he prepared to enter the armed forces.

Juan Farinas issued the following statement after his conviction: "In the two years since my arrest, the Vietnam war crisis has deepened at home and abroad. The government has been unable to make any progress in crushing the Vietnamese workers and peasants, so that renewed escalation, including bombing and invasion of the North Vietnam is now threatened. In addition, the struggle here in the U.S. has also been escalated.

"It is highly significant that

has been raised and spent in legal fees, printing expenses, postage and travel expenses.

Helena Farinas has toured the San Francisco Bay Area and Chicago. Juan Farinas has spoken to meetings at the State University in Stony Brook, New York, and in Bridgeport at a meeting co-sponsored by the Workers League and the Young Lords. Meetings have also been held at Columbia University, the Columbia-Presbyterian Medical Center, a highly successful fund-raising dance was held at New York City Community College and the case has been publicized

Judge Pollack interrupted court proceedings to sign injunctions against the rail strike, and that my defense witnesses all came from the ranks of the working class.

"In my testimony I referred to the war going on in the courtroom. On one side was the government, the army, the judge and the bosses they serve. On the other side was the working class and the youth.

"I sincerely thank all those who came to my support. I will contact them all in the very near future to discuss how we can continue and take this fight on a much higher plane."

In the seven weeks since the Juan Farinas Defense Committee was formed over 100 sponsors of this committee have been gained. These include many organizations as well as individuals prominent in the anti-war, student, black and Chicano movements. The sponsors include officials of District 65, the SSEU, the American Federation of Teachers, the Amalgamated Meatcutters, the Teamsters, the United Shoe Workers and many other unions. They include the Puerto Rican Students Union, the Young Lords Party, Corky Gonzalez of the Denver Crusade for Justice, the Black Panther Party, many SDS chapters, Dave Dellinger, Jerry Gordon, Jim Lafferty, the Student Mobilization Committee and the Vietnam Peace Parade Committee.

Nearly two thousand dollars

in many student, union and radical papers.

The Committee faces immediate expenses for procuring the minutes of the trial, possible further printing costs for the court record as well as continuing costs of publicity and travel.

The Committee intends to redouble all of its efforts on Farinas behalf. Some of the plans to be discussed include: a meeting of union supporters of Farinas and plans to widen support for Farinas in the labor movement; further work in the Spanish-speaking community; a tremendous expansion of national work on this case and of press coverage; a benefit concert for the Defense Committee and a public mass meeting with prominent speakers on behalf of Farinas.

The Defense Committee intends to print a pamphlet in the near future which will give a detailed account of the trial, an analysis of the legal issues and their full significance, a report on the on the campaign thus far and an up to date listing of sponsors of the Committee.

TO THE COURAGEOUS REVOLUTIONARIES OF THE NATIONAL LIBERATION FRONT AND PROVISIONAL REVOLUTIONARY GOVERNMENT OF SOUTH VIETNAM WE SEND GREETINGS

In the spirit of international revolutionary solidarity the Black Panther Party hereby offers to the National Liberation Front and Provisional Revolutionary Government of South Vietnam an undetermined number of troops to assist you in your fight against American imperialism. It is appropriate for the Black Panther Party to take this action at this time in recognition of the fact that your struggle is also our struggle, for we recognize that our common enemy in the American imperialist who is the leader of international bourgeois domination. There is not one fascist or reactionary government in the world today that could stand without the support of United States imperialism. Therefore our problem is international, and we offer these troops in recognition of the necessity for international alliances to deal with this problem.

Such alliances will advance the struggle toward the final act of dealing with American imperialism. The Black Panther Party views the United States as the "city" of the world, while we view the nations of Africa, Asia and Latin America as the "countryside" of the world. The developing countries are like the Sierra Maestra in Cuba and the United States is like Havana. We note that in Cuba the people's army set up bases in the Sierra Maestra and choked off Havana because it was dependent upon the raw materials of the countryside. After they won all the battles in this countryside the last and final war for the people to march upon Havana.

The Black Panther Party believes that the revolutionary process will operate in a similar fashion on an international level. A small ruling circle of 76 major companies controls the American economy. This elite not only exploits and oppresses Black people within the United States; they are exploiting and oppressing everyone in the world because of the overdeveloped nature of capitalism. Having expanded industry within the United States until it can grow no more, and depleting the raw materials of this nation, they have

run amok abroad in their attempts to extend their economic domination. To end this oppression we must liberate the developing nation--the countryside of the world--and then our final act will be the strike against the "city". As one nation is liberated elsewhere it gives us a better chance to be free here.

The Black Panther Party recognizes that we have certain national problems confined to the continental United States, but we are also aware that while our oppressor has domestic problems there do not stop him from oppressing people all over the world. Therefore we will keep fighting and restoring "winds" the "city" so as to cause as much turmoil as possible and aid our brothers by dividing the troops of the ruling circle.

The Black Panther Party offers these troops because we are the vanguard party of revolutionary internationalists who give up all claim to nationalism. We take this position because the United States has acted in a very chauvinistic manner and lost its claim to nationalism. The United States is an empire which has raped the world to build its wealth here. Therefore the United States is not a nation. It is a government of international capitalists and as much as they have exploited the world to accumulate wealth this country belongs to the world. The Black Panther Party contends that the United States lost its right to claim nationhood when it used its nationalism as a chauvinistic base to become an empire.

On the other hand, the developing countries have every right to claim nationhood, because they have not exploited anyone. The nationalism of which they speak is simply their rightful claim to autonomy, self-determination and a liberated base from which to fight the international bourgeoisie.

The Black Panther Party supports the claim to nationhood of the developing countries and we embrace their struggle from our position as revolutionary internationalists. We cannot be nationalists when our country is not a nation but an empire. We contend that it is time to open the gates of this country and share

the technological knowledge and wealth with the peoples of the world.

History has bestowed upon the Black Panther Party the obligation to take these steps and thereby advance Marxism-Leninism to an even higher level along the path to a socialist state, and then a non-state. This obligation springs both from the dialectical forces in operation at this time and our history as an oppressed Black colony. The fact that our ancestors were kidnapped and forced to come to the United States has destroyed our feeling of nationhood. Because our long cultural heritage was broken we have come to rely less on our history for guidance, and seek our guidance from the future. Everything we do is based upon functionalism and pragmatism, and because we look to the future for salvation we are in a position to become the most progressive and dynamic people on the earth, constantly in motion and progressing, rather than becoming stagnated by the bonds of the past.

Taking these things under consideration, it is no accident that the vanguard party--without chauvinism or a sense of nationhood--should be the Black Panther Party. Our struggle for liberation is based upon justice and equality for all men. Thus we are interested in the people of any territory where the crack of the oppressor's whip may be heard. We have the historical obligation to take the concept of internationalism to its final conclusion--the destruction of statehood itself. This will lead us into the era where the whithering away of the state will occur and men will extend their hand in friendship throughout the world.

This is the world view of the Black Panther Party and in the spirit of revolutionary internationalism, solidarity and friendship we offer these troops to the National Liberation Front and Provisional Government of South Vietnam, and to the people of the world.

OCTOBER 31, 1970

TO: MR. HUEY NEWTON

MINISTER OF DEFENSE
BLACK PANTHER PARTY
U.S.A.

Dear Comrades,

We are deeply moved by your letter informing us that the Black Panther Party is intending to send to the National Liberation Front and the Provisional Revolutionary Government of the Republic of South Vietnam an undetermined number of troops, assisting us in our struggle against the U.S. imperialist aggressors.

This news was communicated to all the cadres and fighters of the PLAF in South Vietnam; and all of us are delighted to get more comrades-in-arms, so brave as you, on the very soil of the United States.

On behalf of the cadres and fighters of the SVN PLAF I would welcome your noble deed and convey to you our sincere thanks for your warm support to our struggle against U.S. aggression for national salvation. We consider it as a great contribution from your side, an important event of the peace and democratic movement in the United States giving us active support, a friendly gesture voicing your determination to fight side-by-side with the South Vietnamese people for the victory of the common cause of revolution.

In the spirit of international solidarity, you have put forward your responsibility towards history, towards the necessity of uniting actions, sharing joys and sorrows, participating in the struggle against U.S. imperialism.

You have highly appreciated the close relation between our both uncompromising struggles against U.S. imperialism, our common enemy. It is well known now, that the U.S. government the most warlike, not only oppresses and exploits the American people, especially the Black and the coloured ones, but also oppresses and exploits various peoples the world over by all means, irrespective of morality and justice. They have the hunger of dollars and profits which they deprived by the most barbarous ways, including genocide, as they have acted for years in South Vietnam.

In the past years, your just struggle in the U.S. has stimulated us to strengthen unity, and rush forward toward bigger successes.

The U.S. imperialists, although driven by the South Vietnamese and Indochinese people in a defeated position, still have not given up their evil design, still seek to gain the military victories and to negotiate on the position of strength. On the SVN battle fields, they are actively realizing their

policy of "Vietnamization" of the war with a view to maintaining the neo-colonialism in South Vietnam and prolonging the partition of our country.

The very nature of the policy of "Vietnamization" is prolonging indefinitely the aggressive war at a degree ever so cruel and barbarous. While Nixon puts forward his "initiative for peace", in SVN the aggressive war got harder and harder; after the "urgent pacification" came the "Eagle campaign"; after that, by the "special pacification" in the countryside and the "for the people" campaign in the towns, Nixon and Thieu Ky Khiem clique have perpetrated innumerable barbarous crimes towards the people of all strata in SVN.

The 5 point proposal of Mr. Nixon, put forth on October 7th exposes more clearly his stubborn, perfidious and deceitful nature to U.S. and world opinion. It is clear that Nixon is unwilling to accept a peaceful settlement on the Vietnam problem, but tries to stick to South Vietnam as a neo-colony and U.S. military base, as well as to legalize the U.S. aggression in Indochina as a whole.

The U.S. government must seriously respond to the September 17th statement of the RSVN PRG, for it is the just basis, the reasonable and logical solution of the SVN problem. These are also the urgent aspirations of the whole Vietnamese people, of the progressive Americans and of those the world over who cherish peace, freedom and justice.

Dear Comrades,

Our struggle yet faces a lot of hardships, but we are determined to overcome all difficulties, unite with all progressive forces, to heighten our revolutionary vigilance, to persist in our struggle, resolutely to fight and win. We are sure to win complete victory.

So are our thoughts: At present, the struggles, right in the United States or on the SVN battle-fields, are both making positive contributions for national liberation and safeguarding the world peace. Therefore, your persistent and ever-developing struggle is the most active support to our resistance against U.S. aggression for national salvation.

With profound gratitude, we take notice of your enthusiastic proposal; when necessary, we shall call for your volunteers to assist us.

We are firmly confident that your just cause will enjoy sympathy, warm and strong support of the people at home and abroad, and will win complete victory; and our ever closer coordinated struggle surely stop the bloody hands of the U.S. imperialists and surely contribute winning independence, freedom, democracy and genuine peace.

Best greetings for "unity, militancy, and victory" from the SVN people's liberation fighters.

NGUYEN THI DINH,
Deputy Commander
Of the SVN People's
Liberation Armed Forces.

FIRST ARMY CHIEF OF STAFF ADMITS HE TRANSFERRED ANTIWAR GI FOR HIS POLITICAL BELIEFS. LABELS ANTIWAR SOLDIERS AT FT. HAMILTON A "GANG".

Brooklyn, New York - A high Army official has admitted that the U.S. military transfers some GIs solely because they exercise their Constitutional free speech rights.

On December 22, second day of Federal Court hearings on the Ft. Hamilton case, Major General Richard G. Ciccolella (Chic'-a-LELL-a) of Ft. Meade, Maryland, and Chief of Staff of First Army, labelled SP4 David Cortright a "troublemaker" and the leader of a "little gang" of dissidents at the New York military base.

Gen. Ciccolella testified that he had learned of the activities of antiwar soldiers and their wives through briefings and staff reports since he assumed command in June of 1970. When asked what he did about Cortright, the general responded, "I ordered them (the Ft. Hamilton command) to transfer him." Cortright received orders to Ft. Bliss, Texas, within days of Ciccolella's order.

Ciccolella justified the punitive transfer on the grounds that Cortright and other antiwar GIs in the 26th Army Band were "weakening (the unit's) general morale, its discipline and its effectiveness." Claiming that the transfer was not punitive, Ciccolella testified, "If we wanted to punish him, we would have court-martialed him."

The Chief of Staff claimed ignorance of whether the other punitive transfers, five to Vietnam and three to Korea, were also done to raise the "general morale" of the 26th Army Band.

Under lengthy cross-examination by Fred Cohn, chief counsel for the 32 soldiers who are suing the Army, the general admitted that neither Cortright nor any of the other soldiers had violated any law. To show that the soldiers' exercise of their Constitutional rights had affected the effectiveness of their unit, Ciccolella could only cite an incident which occurred more than three months after Cortright had been transferred. On November 11, the band failed to perform at a Veterans Day parade in New York. Ciccolella stated this was proof that the antiwar soldiers were disruptive, even after he was told that the bandmaster, Warrant Officer Patrick Flores, had ordered the band not to play because of bad weather.

The general's testimony reflected the thinking of the highest echelons of the U.S. military. On the one hand, Ciccolella claimed the Army recognizes clearly that any soldier like any citizen has full democratic rights, including the right to petition and demonstrate against the war. On the other hand, the general said that this unit was unable to perform its mission because soldiers in the unit marched in demonstrations and signed petitions.

Also testifying at the hearing was Lt. Col. Norman E. Clyde,

who described the computerized process which selects men for transfer. This testimony attempted to show that the soldiers ordered to Vietnam and Korea got their orders as the result of the impersonal operations of a machine. Under cross-examination, however, he admitted that the Pentagon's computer could be swayed by a general who might want to transfer people because of their antiwar beliefs.

As a rebuttal witness, Peter Stool, a former soldier in the Ft. Hamilton personnel office, testified that he had been ordered to place certain soldiers on the "surplus personnel" roster by authority of Gen. Walter Higgins, commander of Ft. Hamilton.

Other testimony was heard from Thomas Brooks, Paul Dix and Richard Russo, all 26th Army Band members under orders to Vietnam and Korea. All had signed antiwar petitions within the last few months. Also on the stand was Monica Cortright, wife of one of the plaintiffs, who participated in a demonstration by Military Wives for Peace on July 4.

Federal Judge Jack B. Weinstein ordered a 30-day extension of the case to allow the Army to supply information which he had ordered earlier in the proceedings. Judge Weinstein indicated that the evidence introduced so far showed a prima facie case against the Army as regards Cortright's transfer and the restrictive rules imposed on the band last summer, although it did not indicate a case for the GIs who had been ordered to Vietnam and Korea.

If the judge finds he has jurisdiction, he can order the Army to revoke Cortright's punitive transfer to Ft. Bliss. Such an action would be a major step forward for the rights of antiwar GIs. It would make possible judicial review for the rights of any case involving the punitive transfer of any U.S. serviceman for his opposition to the war. Final decision on the case is expected within the next two months.

The Ft. Hamilton case goes back to 1969, when 36 Ft. Hamilton GIs signed an antiwar petition sponsored by the GI Press Service and the Student Mobilization Committee. Their names, along with the names of over 1300 other soldiers, appeared in a full page ad in the Nov. 9, 1969 New York Times. Since that time the Ft. Hamilton GIs have faced escalating harassment from military authorities. They have retained Fred Cohn and Martin Stollar of the National Lawyers Guild - Military Law Panel.

Contributions and letters of support should be sent to the Committee to Defend the Ft. Hamilton GIs, P.O. Box 11, St. George Station, Staten Island, N.Y. 10301

CHICAGO FREE BUSSING PROGRAM

All Black men held in federal, state, county, city prisons and jails are political prisoners. Because of the conditions of their oppression inflicted by the U.S. ruling clique, they have been railroaded to lengthy prison terms or the gas chamber. Most prisons and jails are located in remote areas and the majority of the people in the community don't

have time or transportation to communicate with their incarcerated relatives or friends.

The Illinois Chapter of the Black Panther Party has started a free bussing program to improve the communication between the prisoners and their families. Those interested in participating in or donating to the free bussing program, please contact:

INMATES OF BALTIMORE CITY JAIL DEMAND THEIR RIGHTS

Brothers and Sisters,

This petition was circulated among the Detainees of the Baltimore City Jail and within a week, it had over 300 signatures. The Petition was confiscated, and it is believed to be in the Warden's possession. (Another flagrant violation of the prisoners' constitutional rights)

However, the Spirit of the People is greater than the man's technology, and we will not allow any Warden and any prison walls to stand in the way of our Brothers' and Sisters' right and duty to protest their inhuman conditions.

Mr. Milton Allen - State Attorney-Elect

Mr. Thomas D'Alesandro - Mayor, City of Baltimore
Gov. Marvin Mandel - Gov. State of Maryland

Mr. Joseph G. Cannon - Commissioner, Dept. of Correctional Svcs.

Mr. Hiram Schoenfeld - Warden Baltimore City Jail

Sirs:

We, the undersigned, Detainees of the Baltimore City Jail, according to the constitution and laws of the United States of America do hereby state:

1. We are ALL being held in the pre-trial section of the Baltimore City Jail.

2. We are all presumed INNOCENT by law! However, we are

treated worse than convicted men and women.

3. We have been, and are being, held for up to nine to fifteen months without preliminary hearing or trial - a direct violation of the constitution and laws of the U.S. - the right to a speedy and impartial trial.

4. We are being held on unreasonably high bail, or no bail - a violation of the constitution and laws of the U.S.

5. We have constantly been denied the right of legal counsel at every legal proceeding. A violation of the constitution and laws of the U.S.

As innocent men and women, we DEMAND to be treated as human beings. We will no longer accept that poor people remain in jail while rich people are set free. We will no longer respect the law that does not respect us! The constitution and laws of the U.S. are very clear as to our rights. However, in the City of Baltimore, the judges and courts in particular and the prosecutors office in general, have made it perfectly clear by their past and present practices against Black people in particular, and poor people in general, that they have failed to adhere to the constitution and laws of the U.S.

We have cumulative files and records of the violations by the courts, judges and prosecutors office who have, and are, flagrantly denying and disregarding our legal and human rights.

We hereby demand:

1. An immediate review of all cases for the setting of reasonable bail, according to our means

of income.

2. Immediate trial of all cases over 90 days.

3. Immediate review and dismissal of all cases where constitutional rights have been denied.

5. Immediate investigation of the prosecutors office, who has participated in sham and illusory charges against defendants.

6. Immediate guarantee for every defendant to be represented by counsel of his choice at every legal proceeding.

7. Members of the press, radio, and TV should be allowed inside the prisons and be shown the conditions we are being detained in by the inmates.

8. Visiting hours be at least twice a week, with times arranged so that family and friends that work will be able to visit during the evening. Visiting hours for lawyers should also be arranged for the evening since there is very little time that they can see us during the day.

9. An end to "lock-up." Seven out of ten prisoners are kept in 4 1/2 x 9' cells 24 hours a day. This inhuman practice should be halted immediately.

10. Immediate release of ALL POLITICAL PRISONERS.

Unless these grievances and demands are met, we will use any means necessary to secure our legal and human rights!

INTERCOMMUNAL NEWS

CABORA BASSA CAMPAIGN STEPS UP

Reprinted from AFRICA AND THE WORLD

Report from the Committee for Freedom in Mozambique, Angola and Guiné.

THE campaign to prevent the Cabora Bassa dam project getting under way has been stepped up sharply in recent months, in Mozambique, in independent Africa and in Europe.

In MOZAMBIQUE, FRELIMO has been stepping up military activity throughout the northern half of the province, including the area around the dam site.

From independent AFRICA have come initiatives in the hope of persuading the European companies involved to withdraw from the dam consortium. President Kaunda of Zambia, speaking on behalf of the East and Central African states, appealed to the Governments of West Germany and France to withdraw their export guarantees from their respective firms. The Organisation of African Unity also condemned Western involvement.

In WEST GERMANY a major campaign is developing, with groups ranging from the radical student SDS to the Catholic Pax Christi making their protests. Demonstrations have already taken place. Chancellor Willy Brandt had to go on television to explain the government's decision not to interfere in the project and it seems certain that activity there is only beginning and will increase considerably in the autumn.

Apart from demonstrations and formal campaigning, groups of students and workers are active inside the plants and factories of the guilty firms—Siemens, AEG, Brown Boveri, Voith and Hoechst—publicising the issue and trying to persuade the employees not to work on material for Cabora Bassa.

The question of Cabora Bassa has raised the whole issue of aid and investment in Africa, and there is now open discussion of the implications of business commitments in white southern Africa and the possible consequences north of the Zambezi.

Though the Government has so far bowed to those who are looking for quick profits in the South, they have promised to re-examine their entire strategy in Africa. There should be no illusions about their motivation, but this changing position can be seen as further evidence of an awareness in hard-headed business circles of the realities of the Southern African struggle.

Controversy

On September 2, a new controversy was sparked off by Dietrich Kuhn, Social Democrat Chief Minister of North Rhine-Westphalia. Returning from a visit to Africa, where he had delivered a letter from Willy Brandt to President Kaunda about Cabora Bassa, Herr Kuhn told a

press conference: "We could very easily be involved there in a new Biafra or Algeria". He said that co-operation on the project between Portugal, South Africa and Rhodesia was taking on military proportions. (Guardian, 3.9.70). His charges were immediately denied by Portugal's public relations firm in West Germany, the Information Service Dr. Manfred Zapp. (Times, 4.9.70).

In FRANCE as in Germany the Government has rejected President Kaunda's appeal, on the same grounds that Cabora Bassa will ultimately be of benefit to the Mozambique people—a myth that was exposed long ago. The current wave of police repression there makes organised political activity difficult, but a debate on this and on the general issue of France's role in Southern Africa is beginning to find its way into the newspapers.

Maurice Schumann, the French Foreign Minister, visited Portugal earlier this year, thus strengthening the links between the two countries, but on his return he denied that France was supporting Portugal in her colonial wars. His arguments sound well-worn: he drew a distinction between "weapons capable of serving in 'police

actions' (struggle against the subversives) and other classical types of weapon. It is towards the latter that the French Government must direct itself in its own interests. France traditionally refrains from supplying weapons which can be used in police operations". (Le Républicain Lorrain, 19.6.70). Little imagination is needed to guess the likely response to this statement from the civilian populations of Mozambique, Angola and Guiné, who can bear witness to frequent attacks from French-made Alouette helicopters.

In ITALY the Government responded to pressure, mainly from independent Africa, and withdrew its export credit guarantee from the Italian firm participating in the ZAMCO consortium. The company concerned, Società Anonima Elettrofrazioni, may still go ahead with South African finance, but at the beginning of June Italy's largest trade union (CGIL) called on the government to forbid any Italian participation in the project.

Dambusters

The Dambusters' campaign in

BRITAIN continues, though its relative quietness over the summer months is perhaps a sign of how much the campaign still depends on student involvement. In September the Dambusters Mobilising Committee was working on plans for intensified and better co-ordinated action over the next few months.

Barclays Bank must still be a major target, but there is evidence that an increasing number of British firms are becoming involved in Cabora Bassa through sub-contracts, often through South African subsidiaries. They hope in this way to remain inconspicuous, and it is essential that they are exposed and efforts are made to ensure that they do not take up the work.

Companies known to be involved: United Transport Overseas, which is operating a regular heavy transport service between Johannesburg and Cabora Bassa and holds three of the major transport contracts to carry equipment for the dam over the next four-and-a-half years. It has also tendered for a fourth contract to transport goods from Beira, on the Mozambique coast, to Cabora Bassa.

GKN has set up a subsidiary near Lourenço Marques to supply equipment for Cabora Bassa.

Alean is a Canadian company, with extensive British interests. It is supplying aluminium for the project.

Ingersoll Rand is a US company with British interests. It is supplying drilling equipment for the dam.

Babcock and Wilcox has recently set up a subsidiary, Babcock and Wilcox Mocambicana, in Lourenço Marques. It makes engineering equipment.

U.N. Protests

The UNITED NATIONS Special Committee of 24 on Decolonisation adopted a resolution on August 18 which called on Portugal "to apply without further delay to the peoples of the Territories under its domination the principle of self-determination and independence".

The resolution also specifically deplored the policies of Governments which had failed to prevent nationals and companies under their jurisdiction from agreeing or preparing to participate in the Cabora Bassa dam and hydro-electric project in Mozambique and the Cunene River basin project in Angola, and appealed "to all Governments which have not yet done so to withdraw from the activities relating to these projects to take all the necessary measures to prevent their participation therein of any companies or individuals under their jurisdiction".

The resolution was adopted by 14 votes to 2—Britain and the United States. Italy and Norway abstained.

FRELIMO freedom fighters in Mozambique. Portugal intends to settle another million Portuguese in Mozambique as part of the Cabora Bassa project which is backed by international big business. The freedom fighters say: We will stop it!

RACISM IN AMERICA.. UNITED NATIONS REPORT

United Nations (AWA)—Racism in the United States became a hot topic of debate here as the 25th Anniversary session of the United Nations General Assembly drew to a close. Quite unexpectedly the debate erupted in the Fifth (Budgetary) Committee when, while discussing the relationship of the United Nations to the host country, Arab and African delegates complained bitterly that racial discrimination, terror bombings, demonstrations and physical attacks on permanent Missions had created an atmosphere unfavorable to their carrying out the functions assigned to them.

Ambassador Mohamed Alwan of Iraq led off by declaring that the United Nations had grown since 1945 to be "almost an international organization" from being "almost an American-European body." In the United States, he went on, it was becoming extremely difficult for the non-white diplomatic community to live because racial discrimination was practiced either official, as it was in the south, or socially, as it is in

New York.

Ambassador Alwan's remark has been provoked by terrorist activity directed against Arab Permanent Missions to the UN and non-governmental Arab Organizations by the extremist Jewish Defense League, which he noted has been condemned by most recognized Jewish organizations in the United States. He was joined by a number of other ambassadors in suggesting that the United Nations headquarters be moved to a European city.

Mr. Alwan observed that members of the JDL had terrorized diplomatic missions in New York, attempted to hijack a plane in London, but still were free to pursue their program without government restraints.

Why, he asked, does the U.S. Government and New York City authorities permit the JDL such wide latitude while it harasses and seeks to suppress groups fighting for black liberation?

Mr. B. Ramblisson of Trinidad and Tabago, supporting the Iraqi ambassador, said the economic benefit from the United Nations

should motivate the U.S. and New York governments to protect foreign diplomats from acts of violence and racial discrimination. He had been a victim of housing discrimination, he revealed, and added that the host country was not "doing as much as it might to correct the situation. Similar remarks were made later by Mr. Jaballah M. Mater of Libya, Mr. Louis Guirandou-N'diaye of the Ivory Coast, and Mr. Miles Stoby of Guyana. Mr. Guirandou-N'diaye reported that a pipe bomb had been placed by terrorists in his country's Mission and that one of his Mission members had once been brutally attacked and "seriously injured." He said his Mission was concerned about the growing insecurity in New York City, "especially for African delegations."

Ambassador Ricardo Alarcon Quesada of Cuba said no Mission had ever been attacked in his country but he did not have time to recount the number of times the Cuban Mission to the United Nations had been attacked. When the Cuban flag at the UN was

desecrated, he said, two persons were detained by the police and released.

U.S. Representative Albert F. Bender was stung by the charges which he "rejected," adding that racism was not a policy of the United States or New York City. Racism, he said, was being fought by the U.S., although some individuals still "displayed racist attitudes and practiced racial discrimination."

A resolution was finally adopted in a watered down version, urging the United States to "make certain that the measures to ensure the protection and security of diplomatic missions and their diplomatic personnel are adequate to enable permanent missions to perform properly the functions entrusted to them by their governments."

The resolution also asked the Secretary-General to convene a committee on United Nations-host country relations in January, 1971, to review the entire matter.

Similar challenges to American racism were made in the Third (Social) Committee, the

Fourth (Trusteeship) Committee and the Special Political Committee. In the Third Committee, Dr. Helen G. Edmonds, the U.S. representative there, had to deliver two lengthy defensive speeches, replying to allegations of American racism concerning black Americans and the remaining colonial victims in Africa.

There is the Informal Committee on Host Country Relations and New York City, as the host city, has created the post of Commissioner for United Nations Affairs, both of which have duties aimed at making the lives of diplomats here run smoothly. But even when the efforts of the United States Mission and the State Department is added to the task it is not easy to overcome what the Kerner Commission on Civil Disturbances called the inherent racist quality of American society. American racism cannot be swept under the rug.

Black Panther Party

Platform and Program

HUEY P. NEWTON,
MINISTER OF DEFENSE,
BLACK PANTHER PARTY

What We Want

What We Believe

1. We want freedom. We want power to determine the destiny of our Black Community.

We believe that black people will not be free until we are able to determine our destiny.

2. We want full employment for our people.

We believe that the federal government is responsible and obligated to give every man employment or a guaranteed income. We believe that if the white American businessmen will not give full employment, then the means of production should be taken from the businessmen and placed in the community so that the people of the community can organize and employ all of its people and give a high standard of living.

3. We want an end to the robbery by the CAPITALIST of our Black Community.

We believe that this racist government has robbed us and now we are demanding the overdue debt of forty acres and two mules. Forty acres and two mules was promised 100 years ago as restitution for slave labor and mass murder of black people. We will accept the payment in currency which will be distributed to our many communities. The Germans are now aiding the Jews in Israel for the genocide of the Jewish people. The Germans murdered six million Jews. The American racist has taken part in the slaughter of over fifty million black people; therefore, we feel that this is a modest demand that we make.

4. We want decent housing, fit for shelter of human beings.

We believe that if the white landlords will not give decent housing to our black community, then the housing and the land should be made into cooperatives so that our community, with government aid, can build and make decent housing for its people.

5. We want education for our people that exposes the true nature of this decadent American society. We want education that teaches us our true history and our role in the present-day society.

We believe in an educational system that will give to our people a knowledge of self. If a man does not have knowledge of himself and his position in society and the world, then he has little chance to relate to anything else.

6. We want all black men to be exempt from military service.

We believe that Black people should not be forced to fight in the military service to defend a racist government that does not protect us. We will not fight and kill other people of color in the world who, like black people, are being victimized by the white racist government of America. We will protect ourselves from the force and violence of the racist police and the racist military, by whatever means necessary.

7. We want an immediate end to POLICE BRUTALITY and MURDER of black people.

We believe we can end police brutality in our black community by organizing black self-defense groups that are dedicated to defending our black community from racist police oppression and brutality. The Second Amendment to the Constitution of the United States gives a right to bear arms. We therefore believe that all black people should arm themselves for self-defense.

8. We want freedom for all black men held in federal, state, county and city prisons and jails.

We believe that all black people should be released from the many jails and prisons because they have not received a fair and impartial trial.

9. We want all black people when brought to trial to be tried in court by a jury of their peer group or people from their black communities, as defined by the Constitution of the United States.

We believe that the courts should follow the United States Constitution so that black people will receive fair trials. The 14th Amendment of the U.S. Constitution gives a man a right to be tried by his peer group. A peer is a person from a similar economic, social, religious, geographical, environmental, historical and racial background. To do this the court will be forced to select a jury from the black community from which the black defendant came. We have been, and are being tried by all-white juries that have no understanding of the "average reasoning man" of the black community.

10. We want land, bread, housing, education, clothing, justice and peace. And as our major political objective, a United Nations-supervised plebiscite to be held throughout the black colony in which only black colonial subjects will be allowed to participate, for the purpose of determining the will of black people as to their national destiny.

When, in the course of human events, it becomes necessary for one people to dissolve the political bands which have connected them with another, and to assume, among the powers of the earth, the separate and equal station to which the laws of nature and nature's God entitle them, a decent respect to the opinions of mankind requires that they should declare the causes which impel them to the separation.

We hold these truths to be self-evident, that all men are created equal; that they are endowed by their Creator with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness. That, to secure these rights, governments are instituted among men, deriving their just powers from the consent of the governed; that, whenever any form of government becomes destructive of these ends, it is the right of the people to alter or to abolish it, and to institute a new government, laying its foundation on such principles, and organizing its powers in such form, as to them shall seem most likely to effect their safety and happiness. Prudence, indeed, will dictate that governments long established should not be changed for light and transient causes; and, accordingly, all experience hath shown, that mankind are more disposed to suffer, while evils are sufferable, than to right themselves by abolishing the forms to which they are accustomed. But, when a long train of abuses and usurpations, pursuing invariably the same object, evinces a design to reduce them under absolute despotism, it is their right, it is their duty, to throw off such government, and to provide new guards for their future security.

Huey would say, "a newspaper is the voice of a party, the voice of the Panther must be heard throughout the land."

We found we as citizens of this country were being kept duped by the government and kept misinformed by the mass media.

The Black Panther Party Black Community News Service was created to present factual, reliable information to the people.

The Black Panther Party Black Community News Service is the alternative to the 'government approved' stories presented in the mass media and the product of an effort to present the facts, not stories as dictated by the oppressor, but as seen from the other end of a gun.
